

Abstract of the Disclosure

The present invention discloses a coloring method of a natural leather and a colored natural leather using the same. The coloring method includes the steps of: putting the natural leather having a colored layer formed on one face thereof together with a releasing paper having
5 an aqueous polyurethane layer and an adhesive layer sequentially coated thereon so that the colored layer and the adhesive layer are faced to be in contact with each other; and removing the releasing paper from the aqueous polyurethane layer. The colored natural leather includes an aqueous polyurethane layer; an adhesive layer formed on an upper surface of the aqueous polyurethane layer; a colored layer having various colors of pattern, formed on an upper surface
10 of the adhesive layer; and a natural leather formed on an upper surface of the colored layer.
